Poster Sessions:

The abstracts submitted for consideration were of an extremely high quality. Many excellent papers could not be accommodated in the limited number of sessions. Consequently a selection of papers will be included in the conference proceedings, but not be presented. Instead they will be presented at Posters Sessions where the lead author will be available to answer any questions and enter dialogue about the papers.

The following papers will be presented by way of posters sessions, during coffee breaks, on the following days;

Monday 22 September

Hong Sun	Towards Longer, Better, and More Active Lives - Building Mutual Assisted Living Community for Elder People
Wolfgang Messow	Is there a relation between ICT products and services and the so-called "green issues"?
Bart Lannoo	Comparison of a Mobile WiMAX rollout at 700 MHz and 2500 MHz

Tuesday 23 September

Shkelzen Cakaj From Analogue Infrastructure toward Converged Services in Kosovo's Telecommunication Network

Carles Martin Qualified ICT professionals today, and tomorrow?
